FROM THE DIRECTOR

Our staff is dedicated to making you feel at home in your new home at Coventry Place. Our job is to make sure that your life in our community is comfortable, safe and enjoyable. We want you to be happy here and to feel you've found a place to stay—that you're part of the family. Thank you for being here.

MANAGING YOUR STRESS

Hi - I'm Rebecca. I've seen many of you around and know some of you. I am a "family member" here at Coventry Place. My dad is Jack Lamb in Apartment 515.

I also am a Licensed Professional Counselor and a Licensed Marriage and Family Therapist. Coventry Director Jo Ann Smith suggested that I let you know that I am here for you professionally if you need me.

Sometimes when we feel sad, mad, or anxious we just need to talk to a professional to help us cope with our stress, anxiety, grief, depression or fears. I can help you think through problems, come up with possible solutions, set reasonable goals and find ways to meet those goals! And, I offer you a special discount for being a resident here at Coventry! Another plus is that I am willing to come here to Coventry to meet with you or you can come to my office at 1240 Clairmont Rd., Suite 206, in Decatur, GA. For an appointment, call me at 404-636-0912.

Please come to the Card Room at 3 p.m., Thursday, May 19th, for refreshments and a free seminar on "Managing Your Stress." We can also talk more about the professional counseling services I offer. I am honored to be with you here at Coventry. See you on May 19th. Thank you.

Seniors Helping a New Generation

American society has become segregated by age—children go to school, adults go to work, and seniors often live in housing with other older adults. As families have become more spread out geographically, grandkids and grandparents often see each other only once or twice a year. But seniors and youths have a lot to offer each other. Youths gain from seniors' knowledge and wisdom, and seniors benefit from young people's energy and enthusiasm. Through these relationships, youths find supportive role models.

Seniors can volunteer to mentor young people in many ways. Check with schools, libraries and youth organizations in our community to see if you can be a tutor or mentor. A popular national organization is the Foster Grandparents Program, offered through Senior Corps. Foster Grandparents serve as mentors, tutors and caregivers for at-risk children and youths through a variety of organizations, including schools, hospitals, drug-treatment facilities, correctional institutions and Head Start and day care centers. To find out more, visit www.SeniorCorps.org and click "More Senior Corps Programs."

THE ACTIVITIES COMMITTEE

The Activities Committee, consisting of Jean Hilbun, Bernard Mattox, Kay Potter, Horacetine Vann and Barbara Olver, met on Tuesday, April 12.

A lot of new ideas were discussed. It seems some of the men would like to play horseshoes. Does that sound good to you? Barbara's going to buy some, so please try it out.

Do you have any ideas of activities you would enjoy? Talk to one of the committee members and let them know. Then we could have a sign-up sheet for people who are interested.

Being active is physically and mentally healthy. Watch the calendar and participate.

Headache Pains and Remedies

Most people have experienced a headache. Headaches are often only a painful annoyance, but they could indicate a more serious medical problem.

Tension headaches are caused by tight muscles in the shoulders, neck and jaw and are related to stress, depression or anxiety. The pain is described as a constant, dull feeling on both sides of the head. If you work too much, don't sleep enough or miss meals, you are more likely to get tension headaches. The most common treatment is over-the-counter pain relievers. Relaxation techniques can help, as can getting more rest.

Migraines may be caused by low levels of serotonin in the brain, which can swell blood vessels. This causes intense pain on one or both sides of the head that may be accompanied by nausea or blurred vision. Over-the-counter medicines

may work for treating migraines, but your doctor can prescribe something stronger if OTCs are not effective.

Cluster headaches are very painful and occur in patterns, or "clusters," that can last for weeks or months. The pain occurs rapidly—often behind one eye—then spreads to other parts of the head and neck. Because the pain is sudden, OTCs are ineffective. Your doctor can prescribe various treatments, including oxygen therapy and medications.

If you experience a sudden, severe headache, contact your doctor. Get medical attention if you have a headache after a blow to the head or the pain is accompanied by a stiff neck, fever or loss of consciousness.

MAY WE ALL

Tick tock, tick tock, or maybe tock tick.

Whatever it takes to make you click. Somewhere in a couple of weeks I say

We're going to celebrate Mother's Day.

And then before the month is plundered

We will be treated to the Indy 500. Meanwhile baseball is here to stay.

Like it or not, the Braves will play.

Slim Down With Water

Drinking two 8 oz. glasses of water before a meal leaves less room for food in your stomach. In a study Va Tech researchers found that water drinkers lost 30% more weight. This works better for older people, because their stomachs empty more slowly.

Mystical, Magical Full Moon Names

The next time you gaze longingly at the perfect wonder of the moon, appreciate your cosmic connection to people of ancient cultures who did more than stare in wonder—they gave meaningful names to each month's full moon.

North American moon names come mainly from Native American Algonquin tribes whose settlements ranged from New England to Lake Superior. Although full moon names can vary, here's one version of how the Algonquin people saw it:

January: Wolf Moon—named for hungry packs that howl at night.

February: Snow Moon—for massive winter storms.

March: Worm Moon—when earthworms and robins reappear, heralding spring.

April: Pink Moon—for widespread phlox flowers.

May: Flower Moon—for spring's proliferation of blooms.

June: Strawberry Moon—for the berry's peak season.

July: Buck Moon—when bucks that have shed their antlers sprout soft and velvety new growth.

August: Sturgeon Moon—for the late summer abundance of this fish.

September: Harvest Moon—for staple crops of corn, pumpkins, squash and beans.

October: Hunter's Moon—prime season for deer, fox and other game.

November: Beaver Moon—time to set winter traps.

December: Cold Moon—for the season's icy blasts.

KEITH PETERS ENTERTAINED ON APRIL 14

ACTIVITIES

Naomi Kelley made this beautiful mask for St. Patrick's Day and we didn't get it in last month's newsletter. Isn't she beautiful?

Here are Mildred, Eileen and Rosemary at the Happy Hour on March 31. We had a good turnout.

Also at the Happy Hour were Jonathan, Estelle and a guest.

There was a great group at the Decatur Sing-a-Long.

More of the people at the sing-a-long.

Also at the sing-a-long were Stephanie and David, shown here with Eileen and Marie. Aren't they adorable?

THE APRIL BIRTHDAY PARTY

On Tuesday, April 12, we celebrated the birthdays of all the residents born in April. There weren't as many this month but we had lots of guests and lots of fun.

The resident who had achieved the most birthdays was Rachel Spivey, pictured on the left.

Above in the picture from the left are the honorees:

Mike Finney, Rachel Spivey, Mary Ferry and Roscoe Lowery. Not able to attend were Bill Worrell and Jack Schocoff.

Please put on your calendar to come to the birthday luncheon when your loved one has their birthday month. The May luncheon will be on the tenth. Each resident can have up to four guests at no charge and we have a special menu for this event.

Call ahead, 404-296-0962, to make reservations.
